

Preface	5
Invited papers	
Wegener H.C., F.M. Aarestrup, L.B. Jensen, A.M. Hammerum and F. Bager – The association between the use of antimicrobial growth promoters and development of resistance in pathogenic bacteria towards growth promo- ting and therapeutic antimicrobials	7
Kelly D. – Probiotics in young and newborn animals	15
Roth F.X. and M. Kirchgessner – Organic acids as feed additives for young pigs: Nutritional and gastrointestinal effects	25
Opaliński K.W., F. Dmowska, G. Makulec, L. Mierzejewska, P. Petrov, S.G. Pierzynowski and D. Wojewoda – The reverse of the medal: feed additives in the environment.....	35
Jensen B.B. – The impact of feed additives on the microbial ecology of the gut in young pigs.....	45
Zabielski R. – Regulatory peptides in milk, food and in the gastrointestinal lumen of young animals and children.....	65
Pierzynowski S.G. and A. Sjodin – Perspectives of glutamine and its derivatives as feed additives for farm animals.....	79
Grognet J.-F. and Ch. Duvaux-Ponter – Acquisition of passive immunity in domestic ungulates	93
Simon O. – The mode of action of NSP hydrolysing enzymes in the gastroin testinal tract	115
Smulikowska S. – Relationship between the stage of digestive tract development in chicks and the effect of viscosity enzymes on fat digestion.....	125
Poulsen H.D. – Zinc and copper as feed additives, growth factors or undesirable environmental factors.....	135
Piva A. – Non-conventional feed additives	143
Buddington R. – The influences of dietary inputs on the neonatal gastrointe- stinal tract: Managing the development of a complex ecosystem	155

Communications

Simões Nunes C. and P. Guggenbuhl – Evaluation of Salinomycin (Biocox@) effects on pig performance.....	167
Grela E.R., R. Krusiński and J. Matras – Efficacy of diets with antibiotic and herb mixture additives in feeding of growing–finishing pigs.....	171
Simões Nunes C. and P. Guggenbuhl – Comparative effects of <i>Aspergillus fumigatus</i> and <i>A. niger</i> phytases on phosphorus and calcium digestibilities and phosphorus faecal excretion in the growing pig.....	177
Thaela M.–J., M.S. Jensen, S.G. Pierzynowski, S. Jakob and B.B. Jensen – Effect of lactic acid supplementation on pancreatic secretion in pigs after weaning	181
Blank R., R. Mosenthin and W.C Sauer – Gastrointestinal response of early-weaned pigs to supplementation of wheat–soyabean meal diets with fumaric acid and sodium bicarbonate.....	185
Mroz Z., A.W. Jongbloed, K. Partanen, J.Th.M. van Diepen, K. Vreman and J. Kogut – Heal digestibility of amino acids in pigs fed diets of different buffering capacity and with supplementary organic acids	191
Partanen K., J. Valaja, H. Siljander-Rasi, T. Jalava and S. Panula – Effects of carbadox or formic acid and diet type on ileal digestion of amino acids by pigs	199
Siljander-Rasi H., T. Alaviuhkola and K. Suomi – Carbadox, formic acid and potato fibre as feed additives for growing pigs	205
Mikkelsen L.L. and B.B. Jensen – Performance and microbial activity in the gastrointestinal tract of piglets fed fermented liquid feed at weaning.....	211
Strusińska D., S. Iwańska and B. Pysera – The effect of digest acid on growth rate and some blood parameters in calves.....	217
Leeuwen van P., J. Huisman, M.M. Kerkhof and K. Kussendrager – Small intestinal microbiological and morphological observations in young calves fed milk replacers enriched with a combination of lactoperoxidase system and lactoferrin.....	223
Gralak M.A., V. Leśniewska, R. Puchala, W. Barej and E. Dymnicki – The effect of betaine and rumen undegradable choline on growth rate and feed efficiency in calves.....	229

Mates I., R.I. Preston and R. Klebaniuk – Role of branched-chain amino acid intravenous infusion on nitrogen utilization in growing ruminants.....	235
Strzetelski J.A., J. Kowalczyk and K. Krawczyk – Lifted of various probiotics on calf performance.....	241
Zomborszky–K.ovacs M., S. Tuboly, H. Biró, L. Bardos, P. Soós, A. Toth and G. Tornyos – The effect of β -carotene and nucleotide base supplementation on haematological, biochemical and certain immunological parameters in weaned pigs.....	245
Kapica M., J.L. Valverde Piedra, T. Studziński and E.R. Grela – Effect of dietary supplementation of raw and extruded grass pea seeds (<i>Lathyrus sativus</i> L.) on activity of pancreatic enzymes in pigs.....	253
Decuypere J., N. Dierick and S. Boddez – The potentials for immunostimulatory substances (β -3/1,6 glucans) in pig nutrition.....	259
Leśniewska V., S.G. Pierzynowski, H. Nygaard Johannes, M. Skou Jensen and B.B. Jensen – Weaning of pigs: duodenal myoelectrical activity during the change from sow's milk to solid feed.....	267
Jamroz D. and T. Wartecki – Influence of fat addition to feed mixtures on the rate of yolk sac resorption in chickens, blood and pancreas enzyme activity	271
Pierzynowska J. and E. Grzesiuk – Antimutagenic effects of ellagic acid, rutin and psoralen against the aflatoxin B1.....	277
Grongnet J.-F. and Ch. Duvaux-Ponter – Mortality of young animals - the scale of the problem	285
Taljański-Zygmunt W., E. Grzesiuk, R. Zabielski and S.G. Pierzynowski – Introduction to the Round Table Discussion. Is the use of antimicrobial drugs in agriculture risky for human health ?	289
