

Chwalibog A., A.-H. Tauson, C. Matthiesen, A. Ali, K. Thorhauge, E. Sawosz and G. Thorbek – Oxidation of carbohydrates and fat in newly hatched chickens	3
Strzetelski J., K. Bilik, B. Niwińska, G. Skrzyński and E. Luczyńska – Ultrasound evaluation of the mammary gland tissue structure in preparturient heifers	7
Dymnicka M., A. Łozicki, M. Koziorowski, J. Klupczyński, J. Miciński and A. Mścisz – The effect of coneflower (<i>Echinacea purpurea</i>) on the immunological function of the mammary gland of cows during the perinatal period	11
Micek P., F. Borowiec and M. Marciński – Linseed-based diets for sheep. 1. Nutrient digestibility, N retention and rumen fermentation	15
Borowiec F., P. Micek, M. Marciński, J. Barteczko and T. Zając – Linseed-based diets for sheep. 2. Performance and chemical composition of meat and liver	19
Cieślak A., A. Potkański, M. Szumacher–Strabel and J. Kowalczyk – Blond parameters of lambs fed diets with vegetable oil supplements.....	23
Krasucki W., J. Matras, J. Solarz and E.R. Grela – The effect of rapeseed and sunflower cakes on performance and composition of colostrum and milk in sows	27
Furgał-Dierzuk I. – The effect of different dietary fibres on short-chain fatty acid concentrations in the caecum and lipid profile in pig serum.....	31
Króliczewska B., P. Jankowska, W. Zawadzki and J. Oszmiański – Performance and selected blood parameters of broiler chickens fed diets with skullcap (<i>Scutellaria baicalensis</i> Georgi) root.....	35
Sembratowicz I., K. Ognik, J. Truchliński and B. Modzelewska-Banachiewicz – The influence of 1,2,4-triazole and 5-oxo triazine derivatives on some blood and performance indices of turkey hens.....	39
Więcek J. and J. Skomiał – Restricted feeding and linseed oil as modifiers of the fatty acid profile in pork	43
Ostaszewska T., E. Sawosz, T. Niemiec, J. Skomiał and W. Bielecki – Effect of the addition of L-ascorbic acid in megadoses to the diet on the morphology of liver cells in rats.....	47
Sawosz E., A. Strawa, A. Chwalibog, T. Niemiec, I. Kosieradzka and I. Dudkowska – Effect of vitamins E+C and taurine on the oxidative state of DNA in the liver of growing pigs	51
Skomiał J., M. Gagucki and E. Sawosz – Urea and homocysteine in the blood serum of pigs fed diets supplemented with betaine and an enhanced level of B group vitamins.....	55
Więcek J., J. Skomiał, B. Pastuszewska and E. Sawosz – Modified pork fat affects the lipoprotein metabolism of rats	59
Ostaszewska T. and E. Sawosz – Influence of dietary fatty acids and fat level on morphological changes in the liver of nase (<i>Chondrostoma nasus</i> L.)	63

Czauderna M., J. Kowalczyk, J. Skomial and K.M. Niedźwiedzka – A highly efficient method for determination of allantoin in ruminal digesta, ovine urine and blood serum by HPLC.....	67
Ludwin J. and Z.M. Kowalski – The effect of different sources of xylanase on <i>in vitro</i> dry matter digestibility measured by the filter bag method.....	71
Natonek M., E. Słota, A. Żyga and B. Rejduch – The utilization of methods based on protein and DNA analysis for identification of animal-origin components in feeds.....	75
Kinal S., A. Rząsa and A. Korniewicz – Mineral bioplex supplementation of diets for cows affects colostrums quality and immunoglobulins in calf blood serum.....	79
Świątkiewicz M. and J. Bojanowski – Efficiency of ensilaged high-lysine maize grain in pig fattening.....	83
Kosieradzka I., W. Borucki, I. Matysiak-Kata, J. Szopa and E. Sawosz – Transgenic potato tubers as a source of phenolic compounds. Localization of anthocyanins in the peridermis.....	87
Juśkiewicz J., Z. Zduńczyk, S. Frejnagel and J. Fornal – Caecal fermentation in rats fed diets containing transgenic potato tubers.....	93
Kosieradzka I., E. Sawosz, A. Winnicka, W. Kluciński, S. Malepszy, M. Szwacka and B. Pastuszewska – The effect of transgenic cucumbers expressing thaumatin on selected immunity parameters in rats.....	97
Dymnicka M., J. Klupczyński, A. Łozicki, J. Miciński and J. Strzetelski – Polyunsaturated fatty acids in <i>M. longissimus thoracis</i> of fattening bulls fed silage of grass or maize.....	101
Czauderna M., J. Kowalczyk, K.M. Niedźwiedzka, I. Wąsowska, J.J. Pająk, E. Bulska and A. Ruszczyńska – The effect of linseed oil and selenium on the content of fatty acids and some elements in the liver and selected tissues of sheep.....	105
Sokół J.L., J. Niemiec and M. Fabijańska – Effect of naked oats and enzyme supplementation on egg yolk fatty acid composition and performance of hens.....	109
